Supplier Commitment Statement on substances covered by RoHS

As an unusable component alone without other equipment, Directive 2011/65/EU and its latest amendments are not legally applicable to SIB products, according to Article 2, paragraph 4 of this Directive.

In accordance with the latest legislation 2017/2102 and the recent delegated directives, in particular the one designated 2015/863 and more commonly called RoHS 3 amending Annex II of Directive 2011/65/EU, we confirm to meet the expectations of customers, SIB products are free of the following substances above the maximum tolerated concentrations :

- Lead : see note below
- Cadmium (0.01%)
- Mercury (0.1%)
- Hexavalent chromium (0.1%)
- Polybromobiphenyls (PBB) (0.1%)
- Polybrominated diphenyl ethers (EPBD) (0.1%)
- Bis(2-ethylhexyl) phthalate (DEHP) (0.1%)
- Butyl benzyl phthalate (BBP) (0.1%)
- Dibutyl phthalate (DBP) (0.1%)
- Diisobutyl phthalate (DIBP) (0.1%)

Regarding lead, it is the only substance covered by RoHS that is implemented in our products through our brass profiles grade CW614 N.

In our case, since lead is only a copper alloy element with a weight of less than 4 %, according to Annex III, case 6c, it is exempt from the limitation provided for in Article 4, paragraph 1 of this Directive.

We remain at your disposal for any further information.
