

Steckrohr-IEC  
plain conduit-IEC

Ø16; AL

Werkstoff:  
material:

Aluminium 3.3206 EN AW-6060 T5

Oberfläche:  
surface:

pressblank  
mill finished

theor. Gewicht:  
theor. weight:

0,38 kg

Länge:  
length:

3000 mm + 6 mm

Durch schwere Druckfestigkeit und hohe Temperaturbeständigkeit  
Used by heavy compression strength and high temperature resistance

einsetzbar bei extremen mechanischen Anforderungen  
at extreme technical requirements

und festen Verbindungen  
and silid connections

|                                                                                                            |            |                                                        |                                                                                   |                  |     |
